Financial maths is needed for all jobs, from calculating wages to working out profit, loss and VAT. Knowledge of financial maths is also required to be able to understand bank statements and savings.

### **Bank Statements and savings - Financial mathematics ...**

Answer. In the rst year, you would earn  $10:091000 = 90$  pounds in interest, so you have \$1090 after one year. In the second year, you earn  $10:091090 = 98:1$  pounds in interest, so you have \$1188.10 (= 1090+98:1) at the end of the two years. Now compare Examples 1.1.2 and 1.1.3. The rst example shows that if you
