Triangles —
Practice Geometry
Questions By Allen
Ma, Amber Kuang

In geometry,
special right
triangles are great
to work with
because the ratio
of their sides will
always be the
same, making
calculations easier.
The two special

Geometry Quiz - Quizizz

30-60-90 Triangles.

A 30-60-90 triangle is a special right triangle defined by its angles. It is a right triangle due to its 90° angle, and the other two angles must be 30° and 60° . It's also half of an equilateral triangle.

Download File PDF Geometry

As I mentioned earlier, an equilateral triangle has three equal angles all measuring 60° .
