The sensitive KUKA LBR iiwa lightweight robot grips the glass without breaking it. It detects whether the glass is full or empty, rinses it and prepares it for the beer. It then opens the wheat beer bottle, pours the beer and transfers the residual yeast into the glass with a skillful swivel. Thirsty event visitors can then pick up

KUKA KR C4 Operating Instructions pdf - CNC Manual

The powerful multi-function robots of the KR CYBERTECH series are specialized in handling applications: for handling large components, machining, assembly, palletizing and arc welding. They can be controlled with the KR C4 or KR C4 extended. A key new feature of the KR CYBERTECH series is the even more compact design of the industrial robots.
